WEDNESDAY, NOVEMBER 11.

Now let's see if those good times will set in which we were told would immediately follow the election of McKinley, when "confidence" would be restored.

Mr. McKNILEY wired Mark Hanna at the Waldorf hotel in New York, thanking him for his services in the campaign. O, the both of it! And it is said to the world, "Don't we raise an awful dust!"

Dave Smith, here's to you! May you get prettier and grow taller every day you live, and may not be deceived by the idea that though Ohio only failed to give you a big vote, that you haven't got many friends here.

It should be a matter of congratulation among all honest citizens of Kentucky that the man of wealth has been passed the ostrich of being represented in Congress by Billy Bruckridge. He was defeated in the Ashland district by Hon. Evan Settle.

AND Palmer and Buckner—oh, yes, we remember. They "ain't us." We are the ones who are to blame, if they should be called upon a year from now to name these gentlemen and the part they took in the recent campaign, would he able to give a satisfactory reply? Only by consulting records could they do so.

A DISPATCH says that since the election Mark Hanna, the boulder, himself arises with an air of having, by his own efforts alone, saved the country from "ruin and disaster." Hear that, you gold-dust Democrats and you Republicans who thought when voting for McKinley that you were voting for the glory of the Republican party!

JOHN RICE's friend in this country—and that includes almost everybody—will be glad to know that his gallant race resulted in such a grand victory over his opponent, the notorious "gun show" Hunter. The Third district will be honored and greatly benefited by being represented in Congress by that talented gentleman, John S. Rice.

ANOTHER column will be found an address to the people from Bryan, the vanquished hero, yet Bryan, the invincible. It breathes the true spirit of loyalty and determination which has characterized his every utterance, and his views will be shared by every faithful lover of the cause of bimetallism. We have the record of the Board, and examined the system under which the election was conducted and we are convinced that all possible means were used by the Record to obtain a fair ballot and its efforts have accomplished better work in the future for the cause of the people than it did even in the last campaign.

IMMEDIATELY upon the fact became known that W. J. Bryan was defeated for the Presidency, he was overwhelmed with offers of employment at high salaries, from various sources. He declined them all on the plea that he desires to be free in the future to devote a large portion of his time to the advocacy of bimetallism. So firmly convinced is he of the righteousness of the cause which he has been advocating and its ultimate victory, that he intends to make the defense of his life-work and will engage in no occupation which will interfere with his main purpose.

ANOTHER all, what a pitiable record is that of Moses, Palmer and Buckner. The very hypocrisy and unscrupulousness of their race is more apparent now that it is over. Starting out with the averted eye of maintaining the old-time Democratic organization, they ended up with a party whose entire surrender to a party whose every principle and effort is dedicated to those traditions which all true Democrats hold dear. It is said that when asked seriously concerning the matter, the gentlemen themselves advised their followers to vote for McKinley as the surest means of satisfying the aims of the party as set forth at the Indianapolis convention. And yet they call themselves "Democrats!"

It is currently reported that Gen. Simon Bolter Buckner and several other prominent Bolkocats will be rewarded for the services they rendered the Republican party this year by a lucrative official position or a foreign portfolio. And so, why not?

IT is customary for a party to nominate their own candidates in circumstances that are fairly well known and that, since Mr. McKinley's victory, they would have been the most stupendous piece of bluffing ever attempted by a defeated party. But good times would have followed, and continuously better, believe me, than the next four years will bring.

THIS result in this country is very unsatisfactory and should be deplored by every right-thinking man.

Bryan and free silver carried the country by a majority of 26, notwithstanding

Mark Hanna's branch office here and the confident boasts made by the Republicans.

But when the returns came from the East the Bolkocats pulled a glaring discrepancy which was discovered by Republican chairman Gibson before it reached the proper officials for counting. The certificates made out by the election officers of Fortville and the officers of the County Court Clerk and delivered to the City Clerk of Indianapolis. W. J. Lewis got 100, D. H. Smith 80 and J. E. Durbin 65 votes each.

Chairman Gibson in some sound assertion that "there is no truth in the report wired that Mexico contemplates adopting the gold standard."

Just how such a free silver

country as Mexico can be so benefitted by the declaration of the American people in favor of a gold standard and yet not wish to bring upon herself some of the benefits of this good thing, remains for some of our gold-bug friends to explain.

THE Courier-Journal and other gold-dust papers are filled with gloomy accounts of "new enterprises springing up" and "general revival of business" since McKinley's election. It will be observed that names and places are generally lacking, and this effort to create something out of nothing is very transparent.

We sincerely hope that business will revive and do not doubt that times will be better for a time at least, since the money question has settled for four years, but these mythical accounts of "manufactures starting up and a spontaneous revival of business beyond any reasonable expectation,

dilated upon solely for partisan purposes, are more disgusting than entertaining.

OHIO county is redeemed—black Ohio! Her record for the past two years of heavy majorities for the Republican candidate is wiped out by the very decisive majority this year for Bryan and free silver. Mark Hanna's branch office and the sharp management of the well known party workers here, were of course arrayed against the loyal young men of the country whose "confidence" and "influence" could not be bought. Now that the country has faced about, may she continue in the good way.

THE vote in Kentucky was very close and it is not yet known whether it was won or lost. The published results, it is two or three days behind, with the returns yet missing. The count will be several days, and perhaps weeks before the result will be definitely known. The matter may go into the courts, which will prolong it still further. There are evidences of gold fraud in several of the strong gold-hungry counties and predict, and there is no doubt but that rigid fairness and justice would give the gold bugs a heavy majority.

THE HERALD will be pardoned for indulging a few thoughts of self-congratulation. It has worked hard and assiduously for the cause of silver, and its efforts have not been crowned with success in this country where the returns came in so slowly.

THE Chicago Record's postal card came to us an end, just before the last election, of the record which was intended to prove that this enterprise much money was spent but the project failed to secure an accurate forecast of the result. Recently we took occasion to criticize the Record's election in which we adduced the testimony of several subversives at Hastings, Neb., by which record it looked very much like the scheme was a failure. We did not intend to reflect upon the honesty of the Record or the projectors of the scheme, and did not give our opinion that the project was a swindle only inso far as the persons named in the Record as the permanent issue, and this has been done in spite of all attempts upon the part of our opponents to prevent it.

THE contest has been waged this year under great embarrassments and against great odds. For the first time during this generation public attention has been given to the silver question as the permanent issue, and this has been done in spite of all attempts upon the part of our opponents to prevent it. The recorders have publicly advocated the gold standard. Gold-standard Democrats have publicly advocated the election of the Indianapolis ticket, while they have openly opposed the Republicans. The banks and corporations have tried to create a fear of lawlessness while they have been defying the law, and Americans have been beaten up by the national guard while they were secretly harboring gold while the nation's financial independence.

THE result of the efforts of the Administration and its supporters in spite of the threats of money loaners at home and abroad; in spite of the influence of a hundred daily press, historians and almost trumpery publications; in spite of the efforts of a few States, and that, too, by a very small plurality, has defeated himmettism for the present, but almost entirely emerged from the court cases, and corporations have tried to create a fear of lawlessness while they have been defying the law, and Americans have been beaten up by the national guard while they were secretly harboring gold while the nation's financial independence.
